Agenda Item #5—Continue Review of Proposed OSHA Operator Qualification and Certification Standard, Crane Operator Certification Standards from other States, and Draft Rule from John Hartwell

The committee continued to review the proposed OSHA Standard on Operator Qualification and Certification. The committee came to a consensus that Option 3. Qualification by the U.S. Military would not be needed in a Michigan standard.

The committee decided that minor additions would be needed to Rule 1006a(3), Rule 1007a, and 1008a of the Part 10 Lifting and Digging Equipment Standard. The committee also decided that the draft language for an Operator Qualification and Certification rule would be added to Part 10 as Rule 1008b.
